(Registration/sign in begins at 8:30 a.m.; 9:00 a.m. to 3:30 p.m. workshop)

Participants will read the book prior to Thursday, November 1, 2018. Participants will examine Parts 2-5 of the book HEART!

***HEART!** is a wonderful book for teachers and leaders that is broken up into 5 main parts - the parts of a professional journey that reflect upon and discover YOUR journey as well. By reading this book, you will explore and find your **heart** as an educator and examine contributing factors to become more deeply connected to your profession. Author Timothy Kanold uses the term **heartprint**, which he defines as the distinctive impression and marked impact your **heart** leaves on others. It provides insight supported by research and various experts about ideas for pursuing deeply mindful teaching and leading school life as well as a professional career as an educator.*

H – Happiness – Happiness is about your state of being. It is about the **heartprint** of positive emotion we leave at school each and every day. Are you a person of passion, positive impact, and perseverance for the educational profession? (Chapters 1 – 7)

E – Engagement – What are the **heartprint** actions you can take and the conditions you create if you choose to be fully engaged in your work life every day? According to research and the Gallop poll, what percent of U.S. K-12 teachers are fully engaged in their daily work? What percent of teachers are not engaged? What percent are actively disengaged? (Chapters 8 – 14)

A – Alliances – Are you a person open to influence and shared values, able to become relationally intelligent and collaboratively interdependent with others? The impact of your

heartprint becomes magnified via the deep alliances and collaborative efforts with colleagues each and every day during the school year. (Chapters 15 – 21)

R – Risk – Are you a person of vision-focused risks for sustained change with a growth and data-driven mindset for learning and life? Risk-taking moves are based on feedback from student performance coupled with a reflective response to the strategies we use to enhance student learning. Subsequently, taking risks toward improved strategies for the future will be an everlasting **heartprint**. (Chapters 22 – 28)

T – Thought – Are you a person with surface and deep knowledge capacity, thought, and wisdom? It is not enough to do your best; you must first know what to do and then do your best. The WHAT is the **heartprint** that you must make a strong effort to leave with ALL of your students. (Chapters 29 – 33)
